RENEWED SUBMISSION UNDER 37 CFR 1.497(d)

In response to the Decision mailed June 7, 2006, Applicant hereby requests reconsideration. Applicant also requests, to the extent required, that this be treated as a request under Rule 1.48 to correct the inventorship as described herein. Applicant's attorney authorizes payment of any applicable fee to the deposit account identified below.

Applicant herewith is submitting the Declaration of Voislav Damevski. It is submitted that this declaration addresses the Voislav v. Voit issue raised in the Decision. This also explains the tendering of the original declaration and power of attorney by Mr. Damevski, which included Mr. Damevski's signature page attached to a declaration and power of attorney signed by the other co-inventors.

As further explanation, Applicant's attorney hereby states as follows. It was determined that the claims should be amended and additional inventors added. A declaration and power of attorney listing all inventors (original plus newly added) was prepared, and signatures of all inventors except Messrs. Flohr and Mr. Damevski was obtained on this declaration and power of attorney. A copy of this entire declaration and power of attorney was sent hardcopy to Mr. Flohr and electronically to Mr. Damevski (the inventors were geographically dispersed). Mr. Flohr returned the complete declaration and power of attorney bearing his original signature to Applicant's attorney, which was submitted to the US PTO by mail on January 30, 2006. Attached to this declaration and power of attorney was the signature page only of Mr. Damevski (explained in the Declaration of Voislav Damevski).

Applicant's attorney has attached to the Declaration of Voislav Damevski the entire declaration and power of attorney originally presented to Mr. Damevski, which was recently returned to Applicant's attorney as explained in the Declaration. Applicant also attaches hereto the original declaration and power of attorney originally signed by all inventors other than Messrs. Flohr and Damevski. Applicant hopes that this explanation and attached materials adequately address the issues raised in the Decision regarding how the declaration and power of attorney was prepared. Versions of the declaration and power of attorney bearing original signatures of all inventors should now have been submitted to the US PTO.

Applicant also is submitting herewith an assignee's statement and a copy of assignment recordation documents submitted to the US PTO. It is submitted that these documents will address the assignee consent issue also raised in the Decision.

Herein Applicant is attempting to address all outstanding issues raised in the Decision. If there are any questions or if anything further is needed for this application to proceed to examination, please contact Applicant's attorney as soon as possible.

The undersigned declares that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Please charge any required fees to Deposit Account No. 50-0251. Please charge any additional fees due, or credit any overpayment, to Deposit Account No. 50-0251.

Respectfully submitted,

Alan R. Loudermilk
